(BY DIRECT WIRE TO THE TIMES.) PORT AU PRINCE (Hayth) March 21.—[Exclusive Discatch.] The United States gunboat Kegle has arrived here M. A. Gallette, whom the govern-

tions for money, and that this was the reason his name was included in the list of those selected for execution.

M. Gallette added that his wife, who was arrested on March 15, in the vicinity of the palace, and who was placed in irous and taken to juil, had been persecuted for the same cause. When Mme Gallette tras taken into custody, the sum of \$100 in bills and some plekels were found in her possession. It was claimed by the authorities that the woman was frying to bribe seldiers belonging to the palace guard.

(BY DIRECT WIRE TO THE TIMES.) STANFORD UNIVERSITY, March 21.—[Exclusive Dispatch.] Diplomatic exchanges between the faculty and students frought the Stanford campus nearer a state of peace today than R has been at any time in the last few yeaks.

The Student Affairs Committee early in the morning issued a proclamation stating that in its opinion the formal apology voted at "he mass meeting of the associated students Thursday evening hardly constituted enough reparation for the offenses of the men who participated in the now famous parade. Promptly on receiving this statement the 253 men who had acknowledged taking part in the demonstration gathered at Encina Hall and reluctantly voted another apology, which they signed. This has been submitted to the Faculty Committee, and it is believed conciliation and the reinstatement of the disciplined studients will quickly follow.

The Paculty Student Affairs Commune announced at the outset of present trouble that there would be "bartering," and it was strongly branted that beliefed apologies, desig to placate the professors, would be professors, would be the professors.

posed in the Beveridge and La Folietta dills.

The amendments suggested to the Sherman anti-trust law were discussed at the indice. Togrardiess of militarions to proper deficies. The president said that a bill would be presented providing for the legalizing of traffic agreements between railroads. He called that a bill would be presented providing for the legalizing of traffic agreements between railroads. He called attention to the fact that labor organizations, by every the Rate, was desired that a bill would be presented to agree to such legislation in return for a provision exempting them from the operations of the law.

The legislators present were not ready to assent to the demands made by labor in their bill for grievances recently submitted to Congress, and on that account urged that it would be inadvirable to attempt any revision of the Sherman law at this time. It is said the President, while not exactly rejecting it, was not disposed to agree with the advice given him. He declared it was but justice to the rail-

WORK TO BE DONE.

(Continued from First Page.)

city charged with the violation of almost every trust, while the people were buttling for existence. We also had the grafting and bribery that was unsearthed in at least three other important cities, and finally came the exposure of high finance manipulations of the assets of the great railroads followed by the conviction of their officials, and also of large industrial corporations, for utter disregard of the laws of the nation and the State. When these things are considered, no one can express surprise if the confidence of the people should be shaken.

"To you, Mr. President, we accord the credit due for compelling a respect for the law by the great and the small alike. We believe that your work toward higher morality will be remembered as a milestone not only in the development of the country's morals, but as a milestone in the progress of the world.

************************************ LEADS THE LEADERS.

T WOULD be a natural supposition for the layman to imagine that papers in the biggest cities of the country print the most advertising.

The following table of accurate, indisputable figures, showing Pebruary advertising in different American newspapers show to the contrary, however, The Times leading the New York Herald by 1200

lumns.	
Los Angeles Times	3638
New York Herald	2380
Chicago Tribune	2221
St. Louis Post-Dispatch	2138
Kansas City Evening Star	1935
Portland Oregonian	1818
Philadelphia Inquirer	1763
Detroit News and Sunday News-Tribune	1756
Minneapolis Journal	1624
Baltimore American	1620
Cleveland Plain Dealer	1472
Cincinnati Enquirer	1274

Almost 120 columns, or 17 pages, of paid matter alone is the daily average for The Times. No amount of shouting or stirring up of dust clouds by "low-down" contemporaries can befuddle or influence the minds of discriminating, thinking business men, who are guided solely by the logic of the situation.

The Times is not talking about last year's business. It

THE TEST OF TIME.

A Bit of History--Showing **How Honest Goods** and Honest Efforts · Have Succeeded.

For more than thirty years Cham-berlain's Cough Remedy has constantly gained in favor and popularity until it is now one of the most staple medicines in use, and has an enorm sale. Every industry has its pionee days, and it is during these struggling times that its worth and merits are tested. The early history of Chamber lain's Cough Remedy shows that except in point of merit it had no more hope of success than other similar preparations, which were put on the market at the same time, but were never known outside of their own locallty, and have long since ceased to be manufactured. Step by step, each lence becomes more widely known, it has been gradually gaining in favor. Taken first, perhaps, on trial by some family, who found it good, it was recthey in turn passed it on to other friends, and for over thirty years its reputation has in this manner been spreading until it has reached the utand advanced medical authorities dur-ing all of this time have failed to produce a better remedy for coughs, colds Cough Remedy is enjoying the largest sale of any similar preparation on the market. This success can be attrib ling worth. No matter how much prominence an article may receive through the medium of advertising, it must be trustworthy to hold the confidence of the public. In thousands of homes this remedy is the main re liance of parents in attacks of croup.

When the system has been weak

IBY TME ASSOCIATED PRESS—A.M.)

Stossed, who yesterday began to serve ten years' imperisonment for cowardies and treason in surrendering Port Arthur, occupies a room in the Portress of St. Peter and St. Paul, adjoining that of Rear-Admiral Nebogatoff, who is serving a like sentence for surrendering to the Japanese in the Sen of Japan. The room is about twenty feet square, and overlooks a little garden in which the officers are permitted to promotende. Stocassi's family has received parmission to furnish his cell. The officers in the fortress run a private mess of their own, and to this Gen. Stocassi has been admitted.

ALIA SENTENCED TO HANG.

DENVER, March 21.—In the criminal division of the District Court today Judga Greely W. Whitford denied the motion for a new trial for Giuseppe Alia, convicted of the murder of Pather Leo Heinrichs, whom he shot to death in St. Elizabeth's Catholic Church, in this city, Sunday, February 23, and sentenced Alia to be hanged during the week beginning July 12 next.

Last night Alia made repeated attempts to commit suicide by beating his head against the iron bars of his cell. His head was covered with bruises when he was brought to court this morning, and he was so weak he had to be supported by officers.

When asked by the court if he had anything to say, Alia said to the interpreter:

"I didn't do anything."

anything to say, Alla said to the interpreter:
"I didn't do anything."
There is no likelihood of an appeal to the Supreme Court, as Alia has no funds, and there has been no proof introduced of errors in the trial.
After the court proceedings, Alia was immediately taken back to the County Jali, where he will be watcehd closely until he is removed to the State penitentiary at Cahon City, which will take place within a few days.

The Mistakes and Curiosities of Prohibition, Preachers and Politics

BY ARTHUR KOENIG At Wollcott's Printing House 131 S. Broadway, L. A.

acing Death From Kidney Disease

alth is an absolute impossibility when the kidneys are out of order. The explanation is simple fe cannot be lived without waste. The blood sweeps through arteries and veins, supplying vitality every organ and part, gathers up the waste matter and carries it to the kidneys. The kidneys are ter, and it is their office to strain from the blood all these poisonous deposits and to pass them on the bladder for expulsion in the urine. When any part of the kidneys is inflamed the purifying is less perfectly done. The circulation slows down. The kidneys and veins are clogged

with poisonous decaying matter, which causes uric acid to accumulate, with backache, diabetes, Bright's disease, rheumatism and gout as a result.

TO EFFECT A CURE

To effect a cure the inflammation must be checked and the kidneys freed from all accumulation by use of Warner's Safe Cure, which doctors say is the only remedy that can be used without danger of permanently rupturing the frail glands of these most dollcate organs.

A TRIAL BOTTLE OF THIS GREAT KIDNEY CURE WILL BE SENT ABSOLUTELY FREE TO EVERY READER OF THE TIMES WHO SUFFERS FROM KIDNEY, LIVER, BLAD-

DER OR BLOOD DISEASE.

DER OR BLOOD DISEASE.

As an example of the marvelous effects of Warner's Safe Cure, we select at random the case of Mrs. Marie Patten, of 509 Washburn Ave., Chicago, Ill.:

"I have taken Warner's Safe Cure for the last eight months. I was suffering from a diseased condition of the liver, kidners, hladder and stomach also spinal trouble. I was so nervous that I had despaired of ever getting well. I tried many doctors without getting any relief—they seemed to think there was no cure for me.

"I commenced to take your Safe Kidney Cure and Safe Pills after I had despaired of finding relief. I have new gained the victory. After taking the Safe Cure my doctors did not known me. They thought I was a new woman, and I feel ten yours younger.

"I think you never had a better advertisement for your Safe Cure, as I am known by thousands of people in Chicago. I am a professional nurse, and I have a very large acquaintance, many of whom had given me up for dead."

SURE SIGNS OF KIDNEY DISEASE

There are other annulatakable signs of kidney disease—palus in the head and neck, swellings under the eyes, dry skin, dell complexion, thed feeling, loss of energy, scanty and too frequent desire to urinate, painful passage of water, reddish brown sediment in morning urine when it stands 24 hours, etc. If you have any of these symptoms, it's dangerous to delay. Begin taking Warner's Safe Cure at once. It will put all the organs into healthy working order and cure even in advances stages when doctors have given up. In use over 30 years.

Find Out By This Test:

Pursome morning urine in a glass or bottle; hat it stand for twenty-four hours. If then it should be the property of the milky or cloudy or contains a reddish, brick-dust sediment, or if particles or germs float abset in it, your kidneys are diseased. ANALYSIS FREE. If after you have made this test, you have any doubt in your sale send you are not out of the disease in your system, send us a sour our urine, and our doctors will analyze it and send you are report with advice free.

WARNER'S SAFE CURE is put up in two sizes and is sold by all druggists, or direct, at 50 CENTS AND \$1.69 A SOTTLE. Refuse substitutes containing harmful drugs which injure the system. Put some morning urine in a glass or bottle; let it stand for twelly-four hours. If then it is milky or cloudy or contains a reddish, brick-dust sediment, or if particles or germs float sed. AMALYSIS FREE. If after you have made this test, you have made any doubt in your edisease in your system, wend us a sample of your urine, and our doctors will analyse it free.

To convince every sufferer from disease of the kidneys, liver, bladder and blood warners and Rankers and Rankers and Rankers and Rankers of Charles of Charles of Charles of this effect is fully of ranked. If you will write us a full statement of your case, when and a valuable medical host.

"MacIntyre Advertising" Means "Actual Results"

This agency enjoys the distinction of doing more business since January 1, 1908, than during the same period last year.

We attribute this to the fact that business houses are no longer satisfied with "simply advertising," but look for actual dollarand-cent results-"MacIntyre Advertising."

The class of new accounts opened by us are the kind that demand exceptional methods.

We do not undertake to help firms who wish to dabble in advertising-it doesn't pay. But firms whose advertising is a consequential factor in their business will be pleased with our service-its loyalty, its scope, its "get-there-ness."

GROWD CHEERS HIS NAME AT

nothing in its history which requires an apology and we make no apology for espousing the cause of Taft."

Dist.-Atty. J. D. Fredericks urged unity in the party. He called attention to the necessity for a unity of action in order to insure a signal victory at the coming election.

"I admire Theodore Roosevelt," said he. "I would gladly vote for him. But there is another man, just as capable, just as able—a man whom Theodore Roosevelt believes in—William H. Taft, Roosevelt's Secretary of War. I believe in him for he is a man worthy of our faith. [Cheers.]

"The Republican party can boast many strong men. There is Gov. Hughes of New York State, there are others, and we need never fear but that, if we do our duty, we shall find men able to guide this land through all shoals and dangers."

Vocal and instrumental numbers were furnished by the Sixth Ward Republican Club give and mandolin clubs. At the close of the programme the chairs were cleared away and the younger folk enjoyed an informal dance.

EASTER MONDAY NOW THE DATE.

In Five Days You Can Get Rid of All Skin Eruptions by the New Calcium Sulphide Wafers.

Trial Package to Prove It Sent Free Any man or woman gets awfully tired going around with a pimply face day after day. And other people get awfully tired, too, seeing them go around with their faces full of dis-

around with their faces full of disgusting pimples.

If you are one of the unfortunates
who can't get away from your pimples,
and you have tried almost everything
under heaven to get rid of them, take
a few of Stuart's Calcium Wafers
every day. Do that steadily for a few
days, and in less than a week look at
yourself in the wireer.

yourself in the mirror.
You will then say that Stuart's Cal-cium Waters are a wonder in getting rid of skin eruptions.

These wonderful little workers con-tain the most effective blood purifier ever discovered, calcium sulphide.

Stuart's Calcium Wafers have cured boils in three days and the worst cases of skin diseases in a week. Every par-ticle of impurity is driven out of your

The programme for the chiefs and warrant officers has been published. Some theater will be open free to the men each night.

Details regarding the officers' reception were passed at a meeting yester day of the Committee on Entertainment of Officers, presided over by Gen. Adna R. Chaffee and attended by the following: Gen. H. G. Otis, Gen. O. H. Lagrafige. Gen. Robert Wankowski, Col. J. B. Neville. Commander E. J. Louis, Lieut. L. W. Wooster, Lieut. R. H. Miner, Joseph Scott, Eugene Germain, Willis H. Booth and F. J. Zeehandelaar. Gen. Chaffee will preside at the banquet, and will introduce Joseph Scott as toastmaster. Mayor Harper will make the official speech of welcome.

Although the Alexandria Hotel will receive 2500 for the banquet, to be paid by the individual hosts, it will spend a far larger amount than that. Special

N. B. We did not buy the entire stock of dry goods of the bankrupt Central Department Store. We do not advertise that we did. We bought the stock of garments in silk and cloth suits that had been delivered to the receiver after their doors had been closed, as the invoices will show. They are all new within the last three weeks. We did not buy any of the old garments in their regular stock. Our New York buyer had previously shipped us thousands of dollars' worth of merchandise intended for the now defunct store's spring business—and now is the opportune time for us to sell—and you to buy.

cape from the County Hospital here She Was Taken Thursday ter Having Been Treated at the selving Hospital in Los Angeles.

PASADENA, March 22.—The young woman found in the street in Bouth Pasadem Thursday night and who lay unconscious and unidentified at the Pasadem Horpital during Friday, proves to be Miss Emma Baldwin, 24 years old. She escaped from the County Hospital Thursday night, she was returned to that institution yesterday where she is slowly recovering.

CLOSING OF HOTELS.

Already the tourist season is closing. The Hotel Maryland will remain open during the entire summer, and the employes thereof will take their vacations at the Arrowhead. The Hotel Mary and the Hotel Raymond will follow suit. The arrival of the big battleship feet will tend to keep the hotels open for a longer period than usual, and there is talk of running late June to accommodate the crowds that are expected to come to Southern California to view the greatest naval pageant of modern times. Already people here are writing to their friends in the East that the battleship feet follow with the cruiser squadron now on the Coast will be one of the most powerful armaments ever seen, and the hotels are debating whether to keep open until the rush ceases or to close on the usual schedule.

Mr. J. Leon Phillips, who recently

VETERAN REPORTS HOLD-UP. to the beach from Searchlight, Nev.. where she had been for the past six nd Bleeding Near Mouth of Santa Monica Canyon—Says He Has Been Robbed.

Have Free Water

SANTA MONICA, March 21.—W. I., filbley, a veteran who was evidently under the influence of liquor, was found this evening near the mouth of Santa Monica Cañon. He was bruised and bleeding. He said he had been held up by two men who had robbed him of a \$20 gold piece, some silver and a recipt for a newspaper advertisement. Two men who were reported to the officers by a Mexican as having them by him seen bending over the veteran, were arrested. They gave their name, as a Mealy and Dennison, and said they lived in Sawtelle. A \$30 gold piece as Mealy and Dennison, and said they lived in Sawtelle. Are you sharp arough to recognize OPPORTUNITY when she stands at threshold with the door wide open? AYE, AYE? Well, then, GET INTERESTED. Reflect & a histories of growth of other GREAT CITIES and then atte

Opening Sale

Of Beautiful Fifty-Foot Building Lots In the

Ferndale Tract Putney Tract

On the Long Beach line, right at the edge of the city, and within 16 minutes of business center. Opening prices of its range from

\$350 WARDS

\$10 DOWN MONTH

Wide graded and ciled streets, cement walks and curbs, water piped to every lot. 6-cent commutation fare. Restrictions that restrict but do not prohibit. We believe that these are the cheapest close-in lots with high-class improvements on the market. We know that you can purchase no other similarly situated property on these easy terms. This property, previous to subdivision, was known as one of the finest pieces of land in this entire section. Many bearing fruit trees—fig. orange, apricot—and have been preserved intact. Early buyers will have the advantage of securing lots with these trees at no additional cost.

These tracts extend from Long Beach avenue on the east to Compton avenue on the west, Compton avenue now being graded and macadamized, will be the main highway to the sea. With the superb Long Beach line on Long Beach avenue and the new line to the sea on Compton avenue assured, these tracts will enjoy transportation facilities unequaled in all the south.

All this means certain and rapid increase in values. With all these "big things" doing and the inevitable growth of what is destined to be one of the world's greatest cities back of it all, you can readily see the wisdom of investing here now.

Go out today. Call at our effice for free tickets. Open all day today.

Nearly every woman would feel better for a Cascaret every day. Women exercise less than men. That's why they need help most.

That's what some of us do with our bowels. We get into the habit of periodical cleanning. And we never how much better it is to give a little help every day.

To give you a convenient vest-pochet laustive, the action of which is as natural and gentle as the action of laustive feeds.

They are not like the old-time physics—aaster oil, salts and eatherties. We took them only when we were forced to. The way is to take one Cascaret just as soon as you know that you need it. The results are as pleasant as the dose.

All others do need them. Cascarets do just what Nature does for who live in a natural way.

Cancerets are candy tablets. They are soft by all drugglets, but never in bulk. Be sure you get the genuine, with CCC on every tablet. The price is 50 cents, 25 cents and TEN CENTS PER BOX

"The Governor passed a fair night; rather resiless, but is holding his own well this moorning. His condition is not appreciably changed.

INCITED RIOTS.

TACOMA. March 21.—(Exclusive Dispatch.)

Fairbanka dispatches say that Frank Culten, secretary, and Steffason, organizer of the Industrial Weckers of the World in that camp, have been remanded to sail under three bonds for faciting riots. As a cash bond has been demanded by the court, both are still instit. Priestly, vice-resident of the organization, has been, discharged because of an insufficiency of evidence to coaviet. Signmous efforts have been made to raise 19:00 cash to have Steffason and Culten released.

HESE Garments Just

Came In From New York

"If it comes from the Unique-it's Correct."

To say they are beautiful scarcely does them justice. And they are so distinctive—so original; entirely new—of course. They do not class at all with the ordinary garments you see. There is nothing like them in the city.

The new Mirage silk suits in the electric, tobaccos, and blondine shades.

Very smart new effects in cloth tailored suits in rich new spring colorings.

Pretty new demi-tailored gowns—the latest and most exclusive New York models. New Mirage silk dresses in the fashionable sage and raspberry shades; beautiful effects.

Some new creations in rajah suits in modish shades -plain colors and stripes -strictly tailored models.

New lingerie dresses—\$25 to \$100. Linen suits \$25 to \$125.

New tailored suits \$35 to \$75-fancy tailored suits \$40 to \$100. Very dainty new lace and lingerie waists.

Stylish models in skirts and some very clever effects in separate coats-new ef-

A New JENAL

Radically Different from All Other Removable Ice Refrigerators; Better than the Kind You Have Seen

scription of the "Green Mountain," cleanable or removable ice chamber refrigerator, to explain briefly and clearly its purpose and operation, and to show its many advantages from a hygienic, as well as a selling stand point, and prove its claim to sterling merit. The two cuts shown illustrate forcibly the cleanable circuit latory features of "The Green Mountain," and these will be supplemented by such brief but correct details of construction and finish, as will enable you to order readily and intelligently. In response to the demand of recent years for a cleanable refrigerator there has been put on the market a variety of makes, having suspended in the top a removable task or box of holding the ice. Such boxes have various shaped openings in the bottom, through which the cold air fails by gravity only to the lowest point in the provision room. It is argued that this cold air forces out of the latter all moisture, vapors, gases, doors, etc., from food which is refrigerated or preserved, and that such important the removable or preserved, and that such important this are condensed either on through the refrigerator in solution through the refrigerator in solution through the fact that cold air falling by gravity in a body, without a fact of the fact that cold air falling by gravity in a body, without a fact of the fact that cold air falling by gravity in a body, without a fact of the fact that cold air falling by gravity in a body, without the lowest point, and it reaches the lowest point, and it We shall aim in the following de CANFIELD HARDWARE CO shie Dry Air I stription of the "Green Mountain," \$37-539 SOUTH RECAPERY

THE MINING PIELD.

"Of these six elements of success in this contest, the only undetermined appendictly, one appendictly of the transport of would assist the action of a liowed to go to other cities.

"What the product of that mining field is yet to be, none of us, even these who have been longest in mining work, can more than faintly now foresee. The Harriman system is building a railroad down through Somera and Sinaloa, which with trajectly in mineral resources, all of which can be made by Los Angeles, if she will, directly tributary to her, but which if she neglects will be cultivated successfully by San Francisco, El Paso, Denver and Kansas City. The development of New Mexico is largely to come. Portions of it are known to be rich in mineral, and it may fairly be predicted that portions of New Mexico will produce large values from her predicted that portions of New Mexico will produce large values from her predicted that portions of the train of pour fields of the State of Sonors, which really belong to the same general religion, I regard it as probable that this field will within a few years produce as much copper as any two States of rold and silver. The first of these resulted from the gold of Cripple Creek in the contest of the day and who understand the infection of you who read the news of you wan who understand the infection of you who read the news of the day and who understand the in-

Angeles.

THE SMELTER QUESTION.

Thave studied every possibility open for such a smeiter, and I have concluded that the rational solution of the problem would be reached only by making Las Vegas, Nev., which is on the line of the Clark road, a great smelting center. To insure the success of such an enterprise, it would be necessary to enlist the active support of Senator Clark, the president of the Sait Lake line. He should have associated with him Los Angeles capital, and it should be the distinct understanding, fortified by ironclad contracts, that all the power of the Sait Lake Railroad should be used for all time to promote the success of this smeiter, and it should also be arranged that the smeiter should continue to be operated in the interest of Los Angeles, and should not be allowed to fall a victim to the trust.

"The power of the trust in controlling mining and smelting in the West while not quite equal to that of the Standard Ofi Company in the oil field, has still been so great as to be absolutely dominating in a large part of the field. Should an independent smelter, financially weak, be erected near Los Angeles, it would, with absolute certainty, fall a prey to the trust Such THE SMELTER QUESTION

If there are to be any of the States for any of the andidates besides Taft, it seems to us that it is beet time they were holding meetings.

Chairman Jeffries of the Wallop Committee an-counces that he has the men and the gloves ready or the saliormen at a moment's notice.

"Uncle Joe" Cannon now asserts that he never fore in his life. The announcement will be received with regret. "Uncle Joe" is not the man we thought be was.

Tennyson once wrote an ode to a thrashing ma-tine, and yet Chicago poets are severely critiched a celling their verses to the packing-houses as ad-prisements for hams.

There's no fear that Col. Roosevelt will try to run Taft's administration. He may ask for the ap-pointment of a Rough Rider to office, now and then, but that'll be about all.

candidate for Mayor in a Pennsylvania town nowledged in a statement of his campaign excess that he bought three stogies for 5 cents. He three votes right there.

Kansas is about to undergo a great religious re-vival. We hardly see how Kansas will be able to

An eastern college professor says man is more eautiful than woman. The professor probably ame to his conclusion one morning before his wife and time to comb her hair.

Notwithstanding that some Russians recently got gether in the back room of a New York saloon ad declared Russia a republic, the Czar still ap-urs to be holding down his job.

Our beloved sister republic of Mexico views with tughing complacency the fact that the American set is now to engage in shooting up a part of her allowed and sun-kissed territory.

Eight hours a day is advocated for women who work in factories, stores and offices. How about the women who work at home from before daylight until after everybody eise is in bed?

A Chicago woman tied her husband in order to prevent him from attending prayer meeting. And we suppose he was the kind of man who thought he couldn't pray just as well at home.

There is now a strong belief that when E Goldman's husband was searching for material to fill his book "To Hell and Back," he did not find it necessary to leave the corporate limits of Chicago.

As soon as Hearst announced in his anarchistinewspapers that he would not support either Roose veit or Bryan, the third term talk immediately ceased and a boom was started for John A. Johnson

What with the government making new forest reservations right along, and the sawmills working day and night, we have a notion that there is go-ing to be a shortage of trees in this country some

The United States is a country that hasn't much respect for precedents. Therefore it would not be surprising if we should determine to upset tradi-tion by making this Presidential year a prosperous

In answer to a correspondent we desire to state that St. Patrick's Day is not a legal holiday. It is merely a national holiday both in Ireland and America and also in most other countries of the

The man who has accursed the Standard Oil Company of cheating him out of a wife probably proceeded on the theory that the public is willing to believe the Standard Oil Company guilty of anything.

With platforms practically the same, the Demo crats and Republicans will this year ask the people to choose between the candidates, one of whom has record and the other nothing but a pair of inde structible lungs.

We regret, of course, that the President can't be in Los Angeles to welcome the fleet when it arrives, but we are assured that the water front will be black with people, just the same, on that happy and

A bill has been introduced in the Oklahoma Legislature making it unlawful to eat snakes. The constitution of the State also enforces prohibition, so that it will be seen that the snake is having a good time in Oklahoma.

What we would like to know, before things go any farther, is whether the Entertainment Committee has made arrangements to borrow a cannon somewhere to fire salutes with when the fleet pulls

It is a wonder that no one has ever thought of the utility of the idea of making the President's wife the Vice-President of the country and thus make the Chief Executive office of the land not so much a thing to acramble for.

The most unbearable bore in the world is the tiresome ass who starts a new religious cult on the theory that the old-fashioned Christian religion is worn out. The people are flocking back to old-fashioned religion in droves.

The world's natural wealth still remains practically untouched and undeveloped, and yet the vast majority of the people of the world are poor. Man has invented a few gewgaws, it is true, but he is yet far from having learned how to handle himself

NAME THEM!

Will that spectacular prairie preacher, formerly a "literary cuss," who has substituted the gospels according to Debs and Gompers for the four written of old, and tells us that there is "nothing left in this country for an honest man but to go to the poorhouse," name one man who has ever gone to that useful institution because he was honest?

Thousands of men have gone to the poorhouse because they were disfonest and thousands are on the way there for the name reason. Honesty has never landed any man in the poorhouse in this country, or kept him in jail either. Dishonesty is sending mun to both places every day.

To be sure, dishonesty is not the only thing that sends persons to the poorhouse. Bad management in business sends them there. Rash speculation paves the road to poverty. Incapacity, drink, gambling, idleness, extravagance, send men by all the routes to ruin. These things tend to the poorhouses, to penitentiaries, to suicides graves. Dishonesty leads in the same paths. On the contrary, honesty coupled with average ability, energy, economy and persistence has pointed the way by which millions in all times have reached competency, riches, even, and happiness.

If the Kanasa moralist would give more time to

If the Kansas moralist would give more time t reading Matthew Mark, Luke and John and the let-ters of the apostle Paul he would get a light which would show the world to him not as it appears to Job Harriman and "Doe" Haynes.

TIRUSTS AND TARIFFS.

I What New-Light hesitates in avowing that the United States Steel Company is a trust, a trust that in the mouth of the Half-Baked means a "monopoly," that this trust is a "menace" to our industrial life, and that it is a natural offspring of the Dingley tariff act? Ask the ranting La Follette or Bryan or Watson 16 is Bryan or Watson if it is not so. While they roar out their affirmative, let us get a few facts firmly fixed in our mind in order to have something better to base a judgment on.

First, there are \$5,000 stockholders in the steel

First, there are \$5,000 stockholders in the steel corporation. The employes of the company hold in all 175,000 shares. Since the dull times began European investors have bought \$30,000,000 worth of the stock and given us that amount of credit, or balance of trade, against Europe. This was a great advantage when we needed ready money so much. The average number of shares held per stockholder is \$1.5. This means that many stockholders are ersons of small means who depend on the divi-ends for the current expenses of living. The fact hat many employés hold stock makes this argu-

separate concerns doing this work instead of one it would be better for the country (that is for all the people, including all the employes of the corpora-tion, all the stockholders excepting a few, and for those who deal with the corporation, as sellers of raw material or buyers of the products) and that these \$500 concerns would not be monopolies, but

competitors.

There is already competition in the steel business. The United States Steel Company produces only 50 per cent. of the finished material of all consumed in the country. The "independents" produce the other half. Even Mr. Bryan sets 50 per cent. as the arbitrary amount of any commodity he thinks one combine ought to be allowed to finish. So by his populistic zen commundments the steel trust is still a moral activity and not worthy to be sent to jail. Now we are ready to look at the tariff side of

Now we are ready to look at the tariff side of the question. Whatever benefit the steel trust reaps from the Dingley Act its competitors get too. B the United States Steel Company last year made profit of \$10 per ton on the output of its mills. Half the cost of production goes to labor, or perhaps \$10 to \$20 per ton. This may be more than the differ to \$20 per ton. This may be more than the difference between labor paid in Belgian mills and in those in this country, yet the difference would not be so great as some of us dream. The steel company pays some men as high as \$6 per day, super-intendents much more. In Europe men competing with ours get as low as \$1 per day and the best paid superintendents do not get \$5. For all this, have been the contraction of the section the profits made by the trust are certainly large, and might possibly be cut a little and not severely affect any interest. The steel trust could well en-

Ah, yes! But talk it over with the hundreds of Ah, yes! But raik it over with the hundreds of competitors of the trust and get their views before you set out to "cinch the big fellow." The profits made by the "independents" run from \$2 to \$4 per ton, instead of \$10. Lop off \$2 by lowering the duty, and still the United States Steel Company will make \$8 per ton, but the independents will make almost nothing. Put the duty down so that \$4 will be lopped off of the profits of the trust, and it will will be to the trust off a town but you will clear us agree to the trust. still make \$6 a ton, but you will close up every com-petitor in the country, and the United States Steel mpany will have all the work to do. The other ablishments will be thrown into bankruptcy and plus products here. The result will be to deprive tens of thousands of our people of opportunity to make a living. The curtailment of profits will fall widely all over the country on thousands of stockand the employes of the corporation

Under the Dingley Act we are able to shove off into foreign markets defective things turned and sell them at least, at cost. In times like these we can sometimes shove off some surplus stocks of goods, and although these may be sold at lower prices, the mills are kept running, the men kept together until business revives, and raw material is consumed, keeping the producers employed.

So it is not the few large stockholders in the big on who would be einched by the policy the La Pollette crowd, but the competitors, the small stockholders, the employes of the big cor and those of the small ones, and those engaged in the production of raw material.

To conclude, let all grasp the most important fact, that it is not the tariff which gives the great corporation its profits, so much as it is magnitude of operation and skillful conduct. The smallest concern under least competent management makes \$2 a ton profit; the larger under better management makes \$4 a ton. The great combination of capital skill and highest business management makes \$10 and all under the same tariff protection. The trust only could survive a sharp tariff reduction; it would send every little producer to the wall.

Lower the tariff and freeze out all the competitors of the steel trust and then you have a "monopoly." All the competition there will be then must be looked for beyond seas. The foreign man-ufacturer is the fellow the free trader is sure to assist and make fat.

Having pounded Japan into a condition of abject raving pounded sapan into a condition of abject terror and subserviency, Congressman "Red" Hayes is now engaged in curtailing the powers of the Speaker of the House. Ajax defying the lightning was a piker and a four-flusher compared to the dare-

Henry Watterson tries to excuse Bryan on the ground that the loss of the Presidency constitutes a grudge. Then, every American is entitled to a grudge, because they have all lost the Presidency in the same sense that Bryan has lost it.

An English poet has written some stanzas in which he says: "There sits a woman in a lonely place." She was probably trying to think out an Easter hat that would make the others look like THE LATEST HOLD-UP.

THE YOUNG IDEA AND SHOOTING.

School children of Los Angeles are constantly doing something unusual. It would be utrange and unpleasant did they fall to do so, even if sometimes they keep parents and teachers on the anxious seat. We expect to be surprised by the younger generation and we should count the city unfortunate were its thousands of school children all of the same grade of dull mediocrity with none of the firefles of gentus—in the making.

We had examples day before yesterday of both the cheerfully unusual and the out of the ordinary that was otherwise. With all the sweet mayorance

that was otherwise. With all the sweet assurance of youthful femininity which has just gone into long dresses, marcelled its newly done-up hair and upon it tipped a new-fangled hat at an angle of forty-five degrees, a charming Polytechnic miss has prepared plams for an eleven-room schoolhouse and actually ses to one of those awesome mathematic

confesses to one of those awesome mathematic minds, but she also has a pretty American face to accompany it and when one of these days she builds her own house, fustalls a husband therein and forwakes the profession of house-building to perform her share in nation-building Los Angeles will be as proud of her in her natural career as it is surprised to hear of her vouthful predilection toward a man's to hear of her youthful predilection toward a man's In the next column to that devoted to the story

In the next column to that devoted to the story of the schoolgiri architect we find a tragedy in child life. In what is styled a fit of passion a girl of 13 years pointed a pistol at a teacher, then fied to the yard, shot herself and now lies at the point of death in the home of her sorrowing parents.

The shooting process is connected with that of pianting. The young idea shoots out of the fertile soil of the mind, soil which is carefully and dillightly cultivated day after day, is raked over, weeded, watered. The plant of knowledge, ordinarily, is enticed to grow, not too rapidly, but strong and healthy, with the roots firmly embedded and the branches reaching upward to the blue skies of information.

In this abnormal shooting case the tender plant may have encountered some alkali, the corrosive in fluence of which destroyed some moral tissue. The unhappy child must have suffered from abnormal conditions, and it would be cruel to think too harshly of her action. It is important, however, in view of this peculiar incident, that the school authorities should see that arms are not allowed to be carried by their charges. It is absurd to think that any number of girls, let alone boys, should be going around Los Angeles armed in piratical style; but after the painful event at the San Pedro-street little victim of that shooting not the only foolish

DLANTING FARMING LAND TO TREES.

The problem before the American pioneer for 300 years has been to get the primeval forest out of way. He has backed down trees and burne trees to clear the soil and put in a crop. A stretch of prairie land was worth ten times as much as dland, because the sod could be turned up and

We have done with this work in almost every State in the Union. The problem now is how to get more trees grown before the supply of timber is all

In States like Ohio they have county forest as ciations, the purpose of which is to disseminate ex-act knowledge about tree planting and timber growing and the profits likely to accrue from devoting land to this use. The land owners are actually planting their best lands to trees in tracts of a hundred acres.

At Fulton, O., the Monroe County Forest Associated tion met, and there H. C. Rogers spoke on the sub-ject, "Why I Planted One Hundred Acres of Catalpa Trees in the Year 1907." The speaker referred to the continual shrinkage in our forest area, the dis-tances which lumber has to be hauled, the increasing cost of all the products of the woodlands, and the near prospect of a timber famine. Mr. Rogers mays he has spent several years in studying the subject, has traveled hundreds of miles to observe tree planting, the species being set out, their growth, yield and revenue in money. His conclusion was yield and revenue in money. His conclusion was that 100 acres of his best farm land planted to the Catalpa speciosa would in coming years pay a bet-ter return than could be had from the land put to

In Ohio this kind of catalpa makes a growth of a full inch a year in diameter. Farther south the growth is more rapid. This rate of increase will ue until the trees are twenty years old or more, if the grove is properly thinned and pruped Mr. Rogers saw trees cut which made sawlogs fift; feet long and twenty-one inches diameter at nineteen years old. From one Ohio grove 3000 fence posts were cut from each acre at twenty years' growth. These posts sold for \$600 an acre. The speaker laid stress on the fact that a revenue of \$30 a year for twenty years, with no labor in preparing the ground, in planting, with the cost of seed to be considered, with no labor in harvesting an annual crop, preparing it for market and getting it there, is a far better return than the Ohio farmer can hope, for from an ordinary crop.

Besides the rapid growth of the Catalpa speciosa there are to be considered its great lasting qualities. Used as fence posts it has been known to be sound after eighty-five years in the ground. For this reason it is in great demand for telegraph poles and railrond ties. It is very tough and takes the place of oak and hickory in wagon-making and similar aker laid stress on the fact that a revenue of \$30

railroad ties. It is very tough and takes the place of oak and hickory in wagon-making and similar uses. Then it is of even grain and works as besutifully in cabinet-making.

In the course of this address the speaker said: "Catalpa wood can be put to more valuable uses than any other American tree. This is a strong statement, but I make it advisedly, and will enumerate some of the uses to which it is preëminently adupted." He does so and names most of the uses to which ordinary wood is put.

From an inspection of the grain and texture of a piece of this wood made by the writer, noticing the growth made year by year, the impression produced is that in proper soil in California this tree would make a growth of one and a haif to two inches is diameter a year.

ONEY GALORE.

There is money enough in the country for all ordinary purposes, for legitimate business, as things are today. The banks of New York held Saturday noon nearly \$40,000,000 surplus reserves. That is, they had 25 per cent of their deposits in available cash and then nearly the sum just mentioned over this legal reserve. The position of the banks in New York measured by this is \$100,000,000 better than in the dark days of the flurry.

The demand for money is light. For the whole

The demand for money is light. For the whole ountry the bank clearings for all cities having a clearinghouse, about sixty in all, report exchanges for the week past at \$2,389,340,000. A year ago the clearings of the corresponding week were \$3,840,267,-000. The difference is almost \$1,500,000,000. Only three of the smaller clies report as active a use of

funds as in March, 1907.

It is natural that interest rates should be easier 3½ per cent, half that of four months ago. In New York call money is as low as 1½ per cent, and ex mostits' loans are made at as low as 4 per cent. Reports from San Francisco indicate large increases Our local banks are in excellent shape, and there

is improvement from day to day. Money from private sources on good security is easily obtained at 7 per cent. net for a period of one or two years. The tendency is toward lower rates of interest.

When money is to be had in New York at 4 per cent., it will not remain as high as 7 per cent. in Los Angeles.

The United States treasury still holds an en

surplus, but it is shrinking as the revenue off. The surplus Friday was \$261,000,000, a reduction from \$267,000,000 a few months ago.

WHY IS A SECRET?

W The old puzzler, "Why is a Democrat?" should now give way to the more difficult problem, "Why by a secret?" The best answer that has yet been submitted is, "Because there is no such thing as a secret." While there was, perhaps, a time in the world's early history long before telegraphs, posts and telephones were invented when something like a secret could be said to occasionally exist, that time has long since passed. In the present age as well might one be supposed to keep a secret as William J. Bryan to keep quiet at a convention, or anywhere else for that matter.

And yet, widely as this fact is known, we find on

member of the United States Senate reproving other, the other day, for mentioning matters in speech "which ought to be kept a secret." As though anything that two members of Congress know could be possibly regarded as having even the elements of a secret. Among living people there is no longer any such thing. The dead may have seerets, but no one else.
From time immemorial it has been cons

From time immemorial it has been considered unsafe, or at least unwise, to confide anything to a woman which should not become known of all the world. In these days the same may be said of men with equal truth. The reason is that a secret is an impossibility. Neither man nor woman, governments, parliaments, cabinets nor societies have the slightest warrant for considering themselves in possession of knowledge that can't be secured by anybody else who is interested sufficiently to want it. And it is all for the best. The more candid, the franker and the more open we are in our dealings. franker and the more open we are in our dealings with others the better it will be. A secret is al-

\$5 Silk Vests \$2.50

Two-fifty, tomorrow, for the finest China silk vests produced in France-the kind sold in America's foremost stores at five dollars.

Choice of blue, pink or white.

Women's 25c lisle vests with crocheted neck and arms, ribbon run, three for fifty cents.

Women's 75c Mercerized Lisle Vests with hand-crocheted neck and arms, with medallion front, 45c each.

Tuesday's papers will give details of THE embroidery sale—the one that this city's shrewdest shoppers always wait for.

New Parasols

The new season's parasols show many marked changes - rich Pompadour silks and rather pronounced Dresden stripes being much in evidence.

In the "La Belle Tokio" models-the new sixteen-rib parasols for which we have exclusive sale in Los Angeles—solid color silks seem to have the preference. Those in plain

red, green, brown, navy and tan taffetas selling at \$4.50; plain pongees lined with green or brown silk at \$6.50.

We have them in fancy silks, too, of course—up to \$12.

Flannels : Wool Waistin

Whatever your Flannel needs may be—whether for baby's clothing or your own; whether the inexpensive soits or the richest produced in this country—this stock offers a wide selection.

Women's 35c and 50c Hosiery 25c

An overloaded importer of Chemnitz hosiery took a sharp loss on six thousand pairs of women's 35c and 50c stockings. Now you can have the stockings at 25c a pair. Fine gauze lisles and cottons, mostly white and black and tan.

Assignment of the W. H. Bosley Co. JAPANESE ART DEALERS

Having been appointed Assignee of the W. H. Bosley Co., Japanese Art Dealers, I have secured the services of Mr. J. Leon Phillips of New York to conduct an AUCTION SALE for the benefit of the creditors.

This stock of beautiful Japanese goods is too well known to need a detailed description.

I will start the sale TUESDAY morning, March 24th, at ten-thirty, and continue it until all the goods are sold, at No. 422 S. BROADWAY.

ASK COUNCIL TO MELP.

PROTEST FROM COLORED MEN.

Formal protest was filed with the Council by the Afro-American League yesterday against what it terms the "unjust treatment" colored citizens receive from the Civil Service and Police a Commissions. The colored voters allege that the Civil Service Board has free that the Civil Service Board has formed the court that she had come to California that she might free hereant times after he has fairly passed his examination, in order that some one whom the board favors may get the place.

In this they charge that the Civil Service and the Police Commissions work together. They say that men have been rejected by civil service after passing good examinations by reason of a prejudice against them existing in the minds of certain commissionsman and they add that the police board follows this out by firing such of their number as succeed in passing the civil-service ordeal.

Following the resolution published in The Times hast Sunday the Afro-American League filed yesterday the following official protest to the Council against the treatment colored applicants are receivelying.

"As true and loyal citizens we feel that it is unjust to receive such treatment as the present administration has heaped on up. The Civil Service Commission and the police department have shown their narrow-mindedness by discriminating against two of our eligible men.

"The Mayor has stated his inability to right the wrong done by his inferiors. Now we the Afro-American League that it is unjust to receive such treatment of right the wrong done by his inferiors. Now we the Afro-American League the civil service to that the wind and that he would not support ber. "I think my brother to right the wrong done by his inferiors. Now we the Afro-American League the protect of the council for recognition."

COMPROMISE APPOINTMENTS.

WILL NAME NO NEW MEN.

WILL NAME NO NEW MEN.

City Attorney Hewitt's appointments at the Police Station apparently will be in the nature of a compromise. Mr. Hewitt has declined to state officially just who his men will be, but it is pretty generally understood at the City Hall that he will endeavor to stretch out his office force so as to make it cover the Police Station until a new budget is prepared.

Tom Woolwine probably will go-from the City Attorney's office to the place as prosecuting attorney, for a time at least. Ford, Eddy and Alexander are stated to remain as assistant prosecutors, providing the Council will give to the attorney's office to the place as prosecutions, providing the Council will give to the attorney enough money to carry them through the remainder of this year; otherwise a second man will be sent to the Police Station from the attorney's office.

Mayor Harper signed the ordinance yesterday, creating the position of one city prosecutor and three assistants. The official announcement of the men to fill these places will be made tomorrow.

ATTHE COURTHOUSE.

Mrs. M. Campbell, who sued J. J. Campbell for divorce on grounds of cruelty, was also granted a decree by Judge James. She told the court that after living together a short time, her husband treated her most contemptibly, and the details of her story were confirmed by Mrs. Campbell's mother Judge Monroe granted Mrs. Emily Cochran a divorce from Addison Cochran, whom she married in August, 1993, and who desgred her in June, 1995. "Our life together was unhappy," she said. "He was a moroes man and very often durings our married life threatened to kill me. Finally he left me without warning or explanation."

AGENT TOLD THE TRUTH. This is the most peculiar case that has come before me for a long time." said Justice Pierce yesterday in givening C. W. Grant judgment for \$30, with interest, against G. E. Bunnell, San

EREVITIES MISCELLANEOUS.

EMBEZZLEMENT. Frank A. Carlson, 19 years old, was convicted of embegsiement by a jury in Judge Smith's court yesterday and will be sentenced Wednesday morning. He was formerly assistant cashier of the Los Angeles Examiner, and took \$500 of the newspaper's mone% on February 3.

Superior Court a suit against the rail-road. He says that he sustained a broken leg, ribs, and a fractured spine in a collision on March 23, 1967, at Elysian Park.

"After a person has obtained a divorce," said Judge Smith, "they can go where they please; but it is contrary to public policy to grant divorces to persons who only come here with the intention of getting resilient, and that the defendants be complied to furnish pim with a copy of a resilient that Mrs. Johnson came here with any other intention."

WOMAN FAINTED.

DIVORCE DAY IN COURT.

Overcome by the memory of her suffering. Mrs. Alice Rhio coflapsed on the stand in Judge James's court year. He planted forty acres to affaifa and the stand in Judge James's court year. He planted forty acres to affaifa and the levees along the river flooded his fields. He also asserts that in November, 180s, the corporation ejected him from the land and sold it to another. He wishes to pay the balance due on the purchase price, as the land has greatly increased in value.

CONTRACTOR ARRAIGNED.
Charged with the embessiement of 208 from Mrs. Sarah J. Hillson, No. 4117 Budlong avenue, August 8 last, J. B. Tilton, a contractor, of No. 723 Gladys avenue, was arraigned before Justice Stephens yesterday and gave 31000 bond. The plaintiff says she gave Tilton money to pay for material and that he used it for his own purposes.

BATTERY HEARING. W. T. Lips-comb's appeal from the judgment of the Santa Monica court in the bat-tery case brought against him on De-cember 22 by William Martin. was set for hearing on April 2, by Judge Smith

DEMURRER. Judge Smith will hear, Monday morning, argument or the demurrer interposed by C. P. War-den to D. R. Frohock's charge of ob-taining money under false pretences Mr. and Mrs. Warden owned lands for which Frohock exchanged his Soutt Spring street lodging-house on Octo-ber 19.

ACTOR PLAINTIFF. As Walter Hoff, his counsel, informed the court that Mr. Seeley is in San Francisco and cannot appear until Tuesday morning, for arraignment on the charge of embezzling \$450 from Richard Ferris, Judge Smith yesterday continued the matter.

TRIAL SET. Dorothy Gorbam yes-terday pleaded not guilty before Judge Smith to a charge of uttering a worth-less \$400 check on the First National Bank on February 12. Her trial was set for May 5.

CASES CONTINUED. Jacob Hohn will plead Tuesday morning before Judge Smith, to a seduction charge; F. Breusch, on Saturday morning, to the charge of burglary, and A. E. Pingry, Wednesday morning, to a for-sary charge.

RETURN DELAYED, Sheriff Harr RETURN DELAYED, Sheriff Hammel yeateriay received a telegram from Deputy Sheriff Mathewson at Santa Rosa, stating that Al Leal, arcested there Thursday on the charge of passing a fictitious check last May on Rol King, has been admitted to ball by a local court and cannot be returned here until March 30.

BLACK HAT. Attorney H. H. Appel yesterday secured a court order for the return to Mrs. Estelle Corwel of the black hat. framed picture, let ters, and other articles that figured approminently in her recent trial.

Negro Socialist Fined. Negro Socialist Fined.

G. W. Woodbey, the negro Socialist who was convicted in Justice Frederickson's court by a jury. Friday night, of speaking on the streets without a license, was fined £28 yesterday, and paid it. He was one of the first socialists arrested during the recent police crusade.

PINCH SAVES

Bluestone Great Boon for the Lemon Growers.

Battle With Brown Rot Is Told in Whittier.

Better Citrus Methods Are Pointedly Shown.

WHITTIER. March E.—The walls of Friends' Church, which often reverberate to the "amens" of an earnest "experience" meeting, yesterday resounded with the sounds of another sort of experience meeting, when fully 500 of the biggest orange and lemon growers and shippers of California gave their experiences in preparing for market the golden fruit.

A feature of the forenoon's meeting of the citrus growers' institute was the tribute to Prof. Ralph E. Smith's work, given by J. A. Reed, secretary of the Semi-Trople Fruit Exchange. Secretary Reed traced the history of citrus shipping from the time, eight years or so ago, when, as he expressed it, 'the lemon men were in sore straits. Everywhere that the California lemon had been tried came back the verdict, 'It's no good; don't send us anymore,' "To Prof. Smith was due the change," declared the, speaker, "for by the solving of the brown-rot mystery, which was cofting the California growers their profits and their reputation, he saved not only hundreds of thousands of deliars to, growers and shippers—he literally sayed the Industry from doath. We owe to this man more than we ran ever repay." And the growers, with beautiful unanimity, sheered till the old church walls rang. Prof. Smith modestly disclaimed full uredit for his achievement, but diatributed it to C. C. Teague of Santa Psula, who from the first backed his work finuncially; to the Lamon Men's Cub. who assessed every car of their output, and—to Profs. Ramsey Babsock and C. O. Smith, his laboratory austrants.

social and C. O. Smith, his laboratory arrifants.

The brown rot, which threatened to destroy the promising industry, was an especially virulent fungus, which made its appearance on the ripe fruit causing the loss of full carloads of fruit from all the big packing-houses such season. No place or method seemed free from its blighting touch, and grovers and shippers alike saw rate staring them in the face. The laboratory people were asked to undertake the work of finding a remedy, and after exhaustive experiment, they amounted their success. But here again they were met with doubt, for the remedy was so exceedingly simple that the packers doubted its efficiency. The experts prescription was to distance the water in the washing tanks by adding a small quantity of bluestone." Ten cents' worth a day is said to be ample for even the bignest of the packing-houses, and so efficiently has this simple prescription worked that the brown-rot loss is now worked that the brown-rot loss is now accounted their or Porterville, District."

not considered at all in making up the battance sheet.

The Tulare, or Porterville, District." was the title of a paper by A. G. Schutz of Forterville. This locality, which annually auricus the earliest oranges in the State, has been producing fruit since 1875, although the first plenting of commercial importance was that of 160 acros made by George Front of Liverside in 1881. Strange as it seems now, one of the chief trials of the promoters of the orange was the prejudice of the old settlers, most of them cattlemen, who refused to see that any good could possibly come of the new movement.

One of the most interesting discussions of the institute came at the close of this paper, the growers from all swer the State unifing in questions and comments. "Brown rot, brown goot, black mold, gum disease, foot rot, scale and a dozen kimured problems were quickly discussed, and, had there been present any tenderfoot, he would awe quickly decided that the citrus industry was in a bad way, only to be indeceived when Mr. Schulz modestly stated that his ten-acre grove had setted him \$5500 last year!

The work of the United States Deartment of Agraculture, which has pent \$26,000 since 1901 in its investigations as to the reason for the million and a half deliars annual loss to the range growers through the decay in

The work of the United States have partisent of Agraculture, which can be appeared to the provers and shippers by Prof. Harden provers and shippers by Prof. Harden provents and proved of the Department of Agriculture, who demonstrated that the provers and shippers by Prof. Harden provents and packers. Ha-showed convicing charts with isbulated statements as to percentage of decay in fruit handled by various methods and shipped in ventilated, leed or procooled cars. He summarised the situation thus. Sound fruit, manufaction of loss by decay.

His address was followed by others and a large elimination of loss by decay.

His address was followed by others and the shipped as quickly as possible meant a large elimination of loss by decay.

Weak Man Do You Want

To Be Strong and Manly?

The human body is a very delicate piece of machinery. It must be treated gently and intelligently when it is beginning to break down. Dosing the sensitive stomach with drugs will not restore strength. Even if the drugs had strength te give they never reach the parts that need the strength. The greatest acientists and doctors now acknowledge that Electricity is the basis of vitality. Therefore use it, but use it right. This is our specialty. We know better than any other man on earth how to use it in these special troubles, because we have had the benefit of twenty years of close study and actual contact with over 50,000 cases treated with it. Our

IMMENSE PROPORTIONS.

(Continued From First Page.)

ALASKA'S ORIGINAL BOUNDS. apers Discovered That Show Larger Territory Should Have Come to United States

house," said Mr. Hudson yesterday.
"What we have sought is to design a practical building which will fulfill the needs of the county for offices and make of it a modern office building with added facilities for the tremendous amount of work which has to be accomplished."

As an instance of the careful detail followed by Messry. Hudson and Munsell is the fact that in preparing the supports for the floors and in estimating the weights which must be planned for, they considered the weight of the law books which will be installed in the Law Library. Mr. Hudson and his assistants went to the present Law Library in the Merchants' Trust building, and carefully weighed a square foot of law books. Then they estimated the entire weight, and arrived git—a conclusion that the supports for the Law Library floor must be made extra ago relative to the international boundary between the United States and Canada, were uncarrhed by Lee Nabaloft, intimata, friend of Count Leo Telstoi.

Nabakoff was sent to Sitita by the Russian government to inske certain presearches among the old papers for historical data when the important distractions and the important distractions.

orner of Fourth and Mair streets."

FROM CANDLE TO ARC.

From those old days of the little pueblo, long before the coming of the steam engine, the electric cars and chectric lights, the noiseless auto and the rubber-tired cab, to the present time of all those improvements and others too numerous to mention, from the days when Los Angeles had a total population of about 280 to. the time when her population nearly reaches the 300,600 mark; Mr. and Mrs. Newmark have been gone but once for any long period. That was shortly after the Civil War, in 1867 and 1868, when Mr. Newmark, with his wife, went to New York, to lay in the first large supply for his house, then Harrison and relatives, both of the fatheriand and relatives, and so Mr. and Mrs. Newmark etcured.

The hand of time has dealt kindly and gently with them. Both are stillife have been fruitful, and there are true age. Their fifty years of married life have been fruitful, and there are true age. Their fifty years of married life have been fruitful, and there are true age. Their fifty years of married life have been fruitful, and there are true age. Their fifty years of married life have been fruitful, and there are true age. Their fifty years of married life have been fruitful, and there are true age. Their fifty years of married life have been fruitful, and there are true age. They will live and three great-grandchildren.

No elaborate function has been arranged for the coming event, since Mr. Loeb, Mrs. Loeb of their eldest daughter. Mrs. Loeb of their eldest daughter. Mrs. Loeb of their eldest daughter. Mrs. Loeb any of the old-time inhabitants of Los angeles who still remain here.

SOFE WHILE STREET, THE STREET, STREET,

CANFIELD HARDWARE CO.

E HAVE been losing money in our Builders Hardware Department. It is an expensive department to maintain. It is an unsatisfactory business, requiring law suits, liens and no end of legal knowledge in order to collect for the goods. Our other departments have shown such rapid growth that we have decided to cut out builders' hardware to find room for goods more satisfactorily handled, Two months ago we started selling builders hardware at cost. Now we are going to sell it regardless of cost. On April 11th this department will be discontinued. Every dollars worth of builders hardware we have on hand on that day will be boxed up and stored in our warehouse. We want to get our money out of the goods. We are willing to take a few cents on the dollar of its real worth. We will sell builders hardware to dealers anywhere. We will sell to contractors. We will sell to anybody who wants it at from 15 cents

to 20 cents on the dollar less than it actually cost us on invoice prices. Copy of our inventory can be seen by any hardware dealer who wishes to buy.

> Mrs. Wheelock's Menu for Monday

10:30 A. M. PRUNE JELLY WITH NUTS 2:30 P. M. CORN AND CAKE

to \$250 Acre TERMS-One-Fourth Cash, balance in 1, 2, 3 and 4 years at 6 per cent. Interest.

Dairy products valued at \$75,000 were produced on the Chino Ranch last year. Alfalfa, the best feed produced for milk cows, is a banner crop at Chino. Last year's production is estimated at \$200,000. There is a creamery at Chino which takes all the milk the Ranchers have to sell, and many of them who have gone in for dairying have made money at it. One Chino Rancher who keeps 21 cows, estimates his monthly average of milk at \$7 for each cow the year round. Added to this is the profit from the sale of the young calves for veal. Ask for our booklet, "Dairying on the Chino Ranch." It will give you practical information that goes straight to the heart of the industry. OTHER BIG PRODUCERS AT CHINO

Chino Ranch lands are the best in Souther California for the small rancher. They are asfe lands to buy, because the experience of years has proven their value. The soll is rich, water is abundant. Ranchers are making big profits from many crops. Some of the successes are alfalfa, sugar beets, sweet and Irish potatoes, enione, peaches, wainuts, apples, apricots, oranges and many other kinds of vegetables. Poultry and hog raising are also industries that bring handsome returns.

The ranch is only 32 miles from Los Angeles, adjoining Ontario and Pemona. Its favorable location ensures the ranchers an immediate market for all that can be raised. Lying in and about the town of Chino, the great ranch commands the advantages of a street of the land. You can buy other chims in only 32 miles from the settlers in a way, distant, newly distant, newly developed lands must overcome. The town of Chino, the good schools, churches, stores, the profits of the water set and many other conventions of the lands must overcome. The town of Chino has good schools, churches, stores, the profits of the surface of the lands must overcome. The town of Chino has good schools, churches, stores, the profits may be the very and may of the convention of chino has good schools, churches, stores, the profits in Attached the water of the lands on the lephone service and many other conventions the profits from the crops the surface of the lands of the profits from the crops the surface of the lands of the profits from the crops the surface of the lands on the irrigation system, with water delivered in cement pipes, for \$200 to \$250 an acre. The water goes with the lands on the irrigation system, with water delivered in cement pipes, for \$200 to \$250 an acre. Sir Richard Escombe.

A ROMANCE.

By Max Pemberton.

when he discovered the house (for the had long been known to him) and saked himself in which of those darkened rooms. Ritty slept and what would be said of him if he knowed the serants at such a time.

This argument, fortunately, was not pursued further. Every page of this record goes to prove that a pistol and not reason decided the point of irsue for Richard Escombe that might, And it was a pistol fired under his very horse's nose, twenty pages from the gates—so dexterously, so surprisingly, that the startled brute holted headlong for Henley, and Hercules himself, you might have said, would never have held him.

Now a man who has a horse belt with him rarely remembers much of the circumstances. He recollects but a sudden plunge, utters perhaps but a startled exciamation and then is carried to the heart of that mad excitament (and chieffy the excitement of the issue) which is not to be surpassed in any circumstance.

Those who questioned Sir Richard Escombe concerning his experience upon this memorable night learned but little for their pains. He told them of Kitty's house—he remembersivery well how it stood out in the moonlight, its white walls catching the generous beams; a fine yew hedge about it and a pair of considerable gates opening upon a drive. Here he had taken his stand when the unknown miscreant fired a pictol at him; from which moment he had but the poorest recollection of the affair.

Certainly the road was winding and narrow. A great moon shone overhead, there was a wonderful heaven of stars, but he had been a miracle of a horseman who had regarded these things with that thunder of hoofs in his ears and that black uncertainty

Book Publishers — Read This! CUNNINGHAM. GURRISS & WELCH CO.

252 SOUTH SPRING ST

LOS ANGELES.

art the Los Angeles Times, City.

Gentlemen: -

Noticing the large amount of 'Book News' published in The Times, all so well written and arranged that it makes the paper a strong literary authority, the query arises as to why you do not run book advertisements.

Are all the book publishers content to 'rest on their cars' with reference to the sales of books in this city? Surely if you could tell them about the class of people here and the size of the actual population, they would try to reach out for more business.

We have always found the columns of The Times highly remunerative, we believe all our merchants have done like-vise, so why should not the book publisher? We are always willing to do our share of the work in pushing sales of books, but naturally we think it is in the province of the publisher to inaugurate a plan of newspaper advertising, and of course the best, which, as usual, is the cheapest, would be The Times.

We hope you will try and secure some of this advertising, as the more the people learn about books, the more we can sell. Yours very respectfully, Cumningham, Curties & Welch Co.

80,000 Copies of The Times Are Distributed on Sundays to a Superior Class of People. Are Big Buyers and Readers of Miscellaneous Literature.

The fact that what we think things are, and what they later turn out to be, are generally very far apart, is the main theme of Mra. de la Pasture's novela. She thus has ample ground. She has a gift for description of the kind done by those who know a country well and love it, and the Devonshire of "Deberah of Tod's" is a country well worth knowing from the printed page. Mrs. de la Pasture also has the gift of writing conversation, and those equipments together with a consider property of the dramatic property of the dramatic postent to stable property of the dramatic occurs to stable property of the dramatic content to stable property of the dramatic content to stable property of the dramatic property of the dramatic content to stable property of the dramatic property of the dramatic content to stable property of the dramatic content to stable property of the dramatic content to be a passage of the dramatic property of the dramatic property of the dramatic content to be a passage of the dramatic property of the dramatic propert

Lumbago, any back pains, Pleurisy,

Sore Throat, Cold, or La Grippe.

Varicocele

Specific Blood Poison

Our treatment for this affection is thoroughly scientific and cursative, and precisely similar to that in vogue at the famous lifet Springs of Ariannas. Mistakes in diagnosis are frequently made, and it is of the utmost importance that the unfortunate victim of this malady treat with a reputable and skillful specialist. The unfortunate lands are of specific blood poison coming to us for examination is carefully and theroughly examined and the exact nature of the disease and its probable duration patiently explained. We never try to scare our patients, but extend to each and all our sympathetic aid and advice, and do all in our power to effect a speedy and permanent curs.

GoatLymph: Tablets

IN THE EARTH. RARE MINERALS, METAL-LURGY AND CHEMISTRY.

Germanium is a very rare element; discovered in a silver ore in 1886. "It is sometimes observed in tin orea."

Prospectors should confine their efforts to seeking practical ores and minerals. The tungsten (heavy minerals) should be diligently sought for—the whitish gcheelite, the black wolframite and the brown hubnerite—all of them being affected by boiling acid with separation of a yellow powder (tungsten trioxide, or tungstic acid.)

One other white, gray, yellowish and reddish mineral should be prospected for; it, too, is heavy; it is used for paint purposes; it is not affected by gctds, and is known as barytes (heavy spar.)

One other white, gray, yellow powder reddish mineral should be prospected for; it, too, is heavy; it is used for paint purposes; it is not affected by acida, and is known as barytes (heavy apar.)

Sulphur and pyrite (iron disulphide) are of value as sources for sulphuric acid, brimstone and sulphur of commerce.

Alum stone (yellowish red or brown gray in color.) known also as alunite, is a very valuable mineral, and should be, found in Death Valley. A taste of it tells you it is alum of some kind; there is a market for potash alum and likewise for niter (salitpeter.)

By confining yourself to the search for minerals set forth, and to those of gold, silver, lead and copyer ores, you will do well, leaving the rare metals named by you as of no practical interest to prospectors.

Ozydized On.

Ozydized Ore.

ELSINORE, Feb. 25.—[To the Editor of The Times:] Please give character of the enclosed rock—found near here—in your "In the Earth;" also inform me if it contains gold or copper.

ANSWER: A jasper-iron ore, with copper carbonate (low per cent.) and iron exides. Traces of chalcopyrite (loss of the copper carbonate (low per cent.) and iron exides. Traces of chalcopyrite (loss of the copper carbonate (low per cent.) and iron exides. Traces of chalcopyrite (loss of the copper carbonate (low per cent.) and iron and Manganese Oxides.

Los Angeles, Feb. 20.—[To the loss of the copper carbonate (low per cent.) and iron and Manganese Oxides.

Crystallized Committee (loss of the copper carbonate (low per cent.) and iron and Manganese Oxides.

Los Angeles, Feb. 20.—[To the loss of the copper carbonate (low per cent.) and iron and Manganese Oxides.

Los Angeles, Feb. 20.—[To the loss of the copper carbonate (low per cent.) and iron and Manganese Oxides.

Los Angeles, Feb. 20.—[To the loss of the copper cent.]

New Stamp Mill of the Johnnie Consolidated.

No Tungsten Values.

LOS ANGELES, Feb. 22.—(To the Editor of The Times:) Here is a sample of rock from Minneola, San Bernardine county. Does it contain tungsten or any other values?

Yours truly,

D. 2.

PHOENIX (Aris.) March 20.-Sever of Phoenix and William Go Kansas City, who propose to have fif-ty stamps of the mill running in about two weeks, under charge of James P. Culp, a well-known mining man. It is stated that "in sight" are 700,000 tons of ore, which will well repay treatment, averaging more than \$4 a ton in gold, the lowest assays being \$3.89 a ton and the highest \$12. In some smaller workings, considerable \$30 rock has been found.

AMAVISCA BONDED. The Amavisca claims in King of Arizona district. Yuma county, have been bonded to English capital for Arisona district, Yuma county, have been bonded to English capital for \$600.000, the deal being made by Los Angeles and Pasadena people, who have a bond on the property for \$100.000 and who have made cash payment of \$3000, beside considerable stock in the bonding company, issued to Tumacounty residents who had an interest in the claims. The property was examined lately by a Los Angeles expert, who pronounced himself as very well pleased. There are two large veins of rich gold-bearing rock. At the head of the selling company is George H. Barker of Pasadena. Among those who will profit by the deal are Felix Mayhew, the Hodges Brothers, Frank Amavisca and A. E. Soderman.

PECULIAR DEPOSIT.

> Largest Dental Office on the Pacific Coast

A Letter from One of the Most

Reliable Builders in California

Dear Gentlemen: I am writing these few lines to let you know (and all others desiring dental work done) that I am more than satisfied with the work you did for me, and have enjoyed more thorough pleasure (when meal time came, knowing that I could properly chew my food.) the paseight (8) months, than for the twenty (20) years previous.

If I could not have my teeth replaced as they are at this time, I would not take four (4) times the amount you charged me.

I thank you for the satisfactory work you did for me and when opportunity offers shall try and send other work to you. Yours very respectfully.

P. O. Box 36.

Tropico, Cal.

Like the battleships themselves, the Pacific Outfitting Company represents a powerful modern fleet, being a branch of the most powerful purchasing syndicate on the coast. Like the battleships fleet, being a branch of the most powerful purchasing syndicate on the coast. Like the battleships of Uncle Sam, the Pacific Outfitting Company stands for peace and progress, for fairness, honesty and integrity. We send hot shells into high prices and deliver broadsides into the old cash methods of doing business, protecting the people by enabling them to dress better without feeling the strain of paying cash.

We Dress The People on Little Payments 1 ONE DOLLAR A WEEK C

Ladies' Fashionable Outer Apparel and Hats

We carry a line of ladies' suits, coats, skirts, shirt waists and hats unsurpassed on the coast for fine character of materials or perfection of style. We buy our garments direct of the manufacturers, through the largest buying syndicate on the coast. We buy for cash and sell on time. Others buy on time and sell for cash. The difference is in favor of our customers, and they appreciate it.

Men's Fine Suits Ready Now for Spring

Our men's department is entirely separate and em-braces the latest and best fabrics for spring wear. The new worsteds and cassimeres in late shade and invisible stripe effects are all in now, presenting a pleasing range of choice and at prices as low as those of all-cash stores, while permitting the payment in small weekly amounts.

Get Ready For the Fleet Festivities by Getting Your Clothes Now. Open Every Monday and Saturday Evening

Individuality In Dress

To gain that much desired individuality in dress, a man must have his clothes made to special measurements. The man who patronizes the local tailor not only gets more style and individuality in his apparel, but he helps the community. He spends his money at home, thereby keeping Los Angeles tailors busy. Why not be loyal to yourself as well as to your home city? Get the most for your money and work for the commercial interests of Los Angeles by being a "Tailormade man,

A Special B. & A. Creation for "Men who Know"

This four-button DIP FRONT

one of our own special designs
worked out along the lines demanded by men of good taste in
dress. Notice the graceful contour of the coat, that "different"
effect in the cut. This model has been approved by "men who
know," and is sure to meet the ideas of men who want garments of individual character.

You'll find all the correct new fabrics here to choose from —ecru, mauve gray, fawn color, mode and drab shades are much in demand and the biscuit and terra cotta browns come in for their share of popularity.

WELL-ORGANIZED RAID SENDS QUOTATION DOWN.

(BY THE ASSOCIATED PRESS-P.M.)

NEW YORK, March R.—United States Steel was the mainetay of the stock market today. The large accumulation of that scock carried it to the highest price of the year, allowing for the ½ per cent. dividend, which came off the price this week.

The contents of the passiphlet reports of the company, issued periorday, were responsible for this demonstration, especially those passages dealing with the conditions in the trade since the first of the year. A notable impression was made by the official assurance there given that the rate of expansion in the average daily orders coming in for March was as great as it had been successively in January and February over the depth of the

SAN FRANCISCO LIST.

INVINCIBLE RAWHIDE OFFERING

OUR PROFIT-MAKING REGORD One month ago we offered you Rawhide Red Top at 12½ cents per share—and advised you that it would be listed on the various mining stock exchanges—urging its purchase for a quick market advance. Just as we predicted, it is now listed on Goldfield and Los Angeles Mining Exchanges and selling at 18 cents.

Timely market advice is our policy. We now urge the purchase of

AT 30 CENTS

This company occupies the same relative position at Rawhide as the Florence does at Goldfield, owning 97 acres of the richest inside ground. It is the favorite for Leasers—there are now 28 sets at work. Seven of the Leasers have shipping ore. Leasers have made the first and greatest mines in Nevada.

Roseberry Rawhide offers you the Goldfield oppor-tunity of today. The stock will be listed on all leading

We predict the same quick profit-making advance for Roseberry Rawhide as shareholders are experiencing in Red Top.

Buying orders for final allotment of Roseberry Raw-hide at 30 cents prior to listing should reach us promptly.

FISCAL AGENTS Orders executed for all listed Stocks.

JL:

We have faith in Los Angeles. We know it is destined to be the largest and most powerful city on the Pacific Coast.

Fortunes have been made in the rapid increase in realty valuations and still greater fortunes are to be made. We offer you an opportunity to make money with us through the growth of this Imperial City of the West.

We have secured an option on the most beautifully situated tract of land in Southern California. 1600 acres only 6 miles from this office-rich fertile soil, controlling 600 inches of water, and adjoining a high class acreage subdivision now almost sold out.

Our experience in Los Angeles real estate makes us confident that we can sub-divide and sell the entire property at prices ranging from \$350 to \$800 per acre---and we are willing to take the agency for the sale of it at these prices.

This tract can be obtained for only \$150 per acre—just think of it, only 6 miles from 5th and Spring, between Los Angeles and the foothills, commanding two of the prettiest valleys in the world.

It will require \$77,500 to be paid in before Sept. 1st, 1908-\$30,000 at once-and the balance divided in monthly payments.

The income from the sales should more than meet the other payments as they fall due.

Just study this a minute-1600 acres at \$150.00	\$240.000
Amount required	
1600 acres sold for average of \$350 per acre	560,000
Cost of land	240,000
Profit	

This is assuming that we sell for only \$350 per acre, but it will average more -nearly \$500 per acre.

We will accept subscriptions of \$5000 and up. Come in and let us take you over the land and see for yourself the wonderful possibilities.

POULTRY RAISING Elle Cudahy Ranch

One Acre or More \$350 to \$500 Per Acre Abundance of Free Water Salance, One, Two.

W. W. HOWARD

W. W. Howard of San Jacinto, the highest authority on White Leghorn chickens west of the Mississippi, has sen the Cudahy Ranch to establish his model poultry farm. Mr. Howard is known to all poultry fanciers as the one man above all others who has brought to a higher state the breeding of hens to pay. He has whole pens averaging 220 eggs per year per hen. His cockerels 220 eggs per year per hen. His cockerels and puliets have carried away first prizes all over America, including exhibitions at Madison Square Garden and St. Louis Exposition. Mr. Howard will establish his model poultry farm immediately at Cudahy Ranch, that action alone being a tribute to the soil, water, atmospheric, climatic and railroad advantages, beyond the power of any mere words to convey. Mr. Howard has devoted many years to the perfecting of the White Leghorn breed and has reached the highest pinnacle of success that human science ever has accumulated along that line. His reputation is international, his White Leghorn eggs selling as high as \$15 per reputation is international, his write Leghorn eags selling as high as \$15 per sitting.

MRS. BASLEY

Southern California's Most Noted Exto Mr. Howard.

"The White Leghorns do admirably in Southern California, for the climatic conditions greatly resemble those of Italy, where they originated. We are proud to claim that in the W. W. Howard strain we have the best White Leghorns in America, for in his flock is the noted bird 'Mischief,' used as a model in the Standard of Perfection, and Togo II, besides many other winners. The W. W. Howard strain is an example of what may be done in Southern California with this ever popular class of White Leghorns, for by indefatigable and conscientious effort, Mr. Howard has produced a large bird, laying large eggs, and at the same time by trap nesting has increased the egg production most remarkably. The work has been even more successful than the most sanguine might have expected, for the results of his efforts have been not only the best prize winners, but the production of hens, some weighing 6 to 8 pounds; some hens whose eggs weigh over three ounces, five of them weighing a fraction less than one pound." Standard of Perfection, and 'Togo II,'

CUDAHY RANCH

Southern California's Logical Location

The largest returns for the smallest creage may be had in poultry raising. intelligently handled, at Cudahy Ranch Experienced poultry raisers claim that a good living may be made on three acres. Feeding and cleanliness are necessary to success. Both of these requirements are especially assured at Cudahy Ranch. Green foods may be raised in abundance, as the land is fertile and has yielded steadily for years. Water is unlimited, pure and sweet. This is important. It is piped under high pressure by large plants from extra deep wells. Good air is essential to the health of fowl. The sea breeze rises every day in the year at about 10 o'clock as regularly as the day dawns, sweeping before it all unclean odors and providing, when properly ventilated, pens of the utmost cleanliness. * Light soil is a requisite, as the fowl must exercise to develop. The soil of Cudahy Ranch is light, clean and free of all coarse, vermin-breeding qualities. Cudahy Ranch is practically in the city itself, with every transportation facility of the highest class. acres. Feeding and cleanliness are

STOCK ADVANCES TO 10 CENTS PER SHARE

The stock of the Rawhide Operating Syndicate advanced from 5 cents per share to 10 cents per share at the close of business last night at 10 o'clock—Saturday, March 21st.

We told you of this rise several days ago. A great many people took advantage of it. Thousands of shares of stock were sold on Friday and Saturday of the past week. Many thousands will be sold during the next three days—at the 10-cent price.

Every indication points to another material advance within the week. It would not surprise us in the least to receive advice from the Home Company to advance the price to 15 cents, or even 25 cents a share, almost any day. There is only a small block of stock to be sold at 10 cents a share par value \$1.00. If you want any at this price, you'll have to

Parties who are interested in "Rawhide" are requested to come to our offi e and see samples of ore.

The following two telegrams from Mr. E. A. Leavitt,
President of the Company, are self-explanatory:

"Just arrived. Camp presents surprisingly enthusiastic
appearance. Looks better than Goldfield three years ago. See

"(Signed) E. A. LEAVITT,"

"Was over Owl lease this morning. Ground better than highest expectations. Shaft formation identical with Miller Dump. Remarkable pannings obtained from our ground. Will burchase inside ground by Friday.

"(Signed) E. A. LEAVITT."

We are also in receipt of the following communication from one of the stockholders of the Rawhide Operating Syndi-

cate, who has visited Rawhide since investing in this company.

"It gives me great pleasure to tell you of the development of the lease of Rawhide Operating Syndicate. The stockholders will sure make some money. There is little work for miners. Will you please give me work? I would take stock for one-third of my pay if I can get work. Please let me know.

(Signed) H. A. ARLINGTON, Rawhide, Nev."

We also call your attention to the following clipping from the Denver Daily Mining Record of Saturday, March 14. The Daily Mining Record is the recognized mining authority, and this article speaks for itself:

SAYS BOOM HAS JUST STARTED

Engineer Returns From Rawhide and Says the Rush Now On to That Place Is Like That of the Klondyke Excitement.

Special to Daily Mining Record

SAN FRANCISCO, Cal., March 14.—John J. Lynch, engineer for the Rawhide Operating Syndicate of this city, has just returned from Rawhide, and says the boom of that camp is just getting fairly started. Every day records strikes of a startling nature, and nothing since the wild rush to the Klondyke equals the stampede that is on to Rawhide.

The showing of leases Nos. 1, 2 and 4, recently acquired by the Rawhide Operating Syndicate on the Owl No. I. is of such a nature that Mr. Lynch, who has been on the ground looking after the company's interests for some time, advises that the price of the stock be raised. The price was advanced to 10 cents a share last night, by order of the Company. Although details are lacking at present as to the exact extent and richness of the find, it may be taken for granted that it is an important one, as the property is one of the best located in

The first gold taken from this claim was in the form of placer gold, secured through the means of a crude rocker by the original owners, Hughes, Keissling and Alexander, during one shift, and amounted to 16 ounces. This lease was secured from K. L. Parrott, and a force is employed day and night sinking two shafts. ing two shafts.

The Company owns 3 valuable leases—Lease No. 1, Lease No. 2 and Lease No. 4, in OWL CLAIM No. ONE. Work on the properties will be pushed forward just as rapidly as men and machinery can be gotten on the ground. Big things may be expected in the near future.

The strike reported by Mr. Lynch has been expected for some time, and will, no doubt, accelerate the purchase or lease of additional properties, which the Company has for some time contemplated.

We predict that the stock of the Rawhide Operating Syndicate will sell at a much higher figure just as quick as we can get it listed on the Exchange. Stock is now selling at 10 cents a share—but this price will be for a short time only. Your opportunity is now, and you can buy "Rawhide" stock at 10 cents a share. If you are unable to call, wire your reservation and let remittance follow by mail. If you cannot pay all cash, buy on the installment plan of one-fifth cash and balance in eight equal monthly payments.
